The following is an examiner's statement of reasons for allowance: The prior art teaches the use of an image pickup device having a first imager and a second imager which receive an image from a single lens system which is split using a beam splitter. However, the prior art does not teach reducing the size of one of the separated images and enlarging the size of the second separated image and sending the two images to two image sensors having the same resolution. Therefore, the Claims are allowed over the prior art.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
